

ieQ Database 2019

Medical History

Cardiac Risk Factors for IE

Congenital Heart Disease.

ASD-primum or secundum or coronary sinus

Bicuspid aortic valve BAV

Unicuspid or quadricuspid AV

Coarctation of aorta

Double outlet right ventricle (DORV)

Ebstein's anomaly

Hypoplastic Left Heart Syndrome (HLHS)

Interrupted aortic arch ((IAA)

PDA (patent ductus arteriosus)

Pulmonary atresia (PA)

Pulmonary stenosis (PS)

Single ventricle

Tetralogy of Falot (TOF)

Total anomalous pulmonary venous connection (TAPVC)

Transposition of the great arteries (TGA)

Tricuspid atresia (TA)

Truncus arteriosus (TAC)

VSD -muscular, membranous, outlet

Other CHD please specify

Other/details (free text)

Repaired Y/N unknown

Repair type percutaneous/surgical

Repair date

Residual defect at site of repair Y/N

Endocardial/endovascular prostheses

Long drop-down list

Closure devices

Coronary Stent

ECMO cannulae

Endografts, including root replacements

Endoluminal- other

Endoluminal- pulmonary artery

Endoluminal- venous

Endoluminal stent-aortic

Heterograft valve

Homograft valve

Intra-aortic balloon pump

LVAD/RVAD

Pacemaker/defibrillator

Percutaneous implanted valve

Vascular coiling

Other/details (free text)

Prior Endocarditis

Yes

No

(If yes) **How many episodes?**

Description of each episode (free text)

Injecting Drug User.

Never

Current

Past

Any past infections (non-IE) linked to injecting drugs?

Free text

Pre-existing endocardial pathology (non-congenital)

Rheumatic Heart Disease

Mitral regurgitation

MVP

Ruptured chordae

AS

AR

TR

PR

Lambl's excrescences (LE)

Prior surgery

Other

Other/details (free text)

Acquisition of infection (presumed)

Community

Health-care acquired (non-inpatient)

Nosocomial (inpatient acquired)

Details (free text)

Symptomatology

Presenting symptoms symptom (free text), duration (days) seen by GP Y/N

Other ED/OPD attendance Y/N

Details (free text)

Comorbidities/medical or surgical history (free text)

Medications/allergies (free text)

Family history (free text)

Dental History – oral hygiene FT, dental condition (FT), last dental procedure (FT), Abs given prophylactically Y/N, Antibiotic name if known (free text)
