

Looking for an exciting PLC opportunity? Go Rural!

Rural placements are available in 2023 and 2024

The Mayne Academy of Rural and Remote Medicine (RRM) is excited to offer Year 4 PLC students rural placement locations for Semester 2, 2023, and also in 2024.

A rural placement for your PLC is the perfect opportunity for domestic students to build on your Year 3 RRM experience and international students to have the rural experience that you missed out on. Rural communities are many and varied, but always welcoming. Come and see for yourself!

The Benefits

- Open to Domestic and International students
- Access to subsidies through the [Rural Placement Student Support Program](#)
- Accommodation costs covered
- Better teacher:student ratio

What previous students have said about RRM

- Absolutely fantastic placement; easily the best placement so far - *Miles Health Service*
- My placement at Ashfield Country Practice has been my most enjoyable placement thus far, whilst also providing me the richest learning opportunity I have had to date in the MD - *Ashfield Country Practice*
- Excellent placement overall. This placement helped build my independence and confidence, and I now feel comfortable running patient consults on my own - *Southern Downs Medical*
- I had opportunities to observe many procedures and different types of consultations, and feel that I have a much clearer understanding of what rural medicine entails, and some of the challenges that come with it - *Tara Health Service*
- Such a valuable experience! Learnt more in these 6 weeks than I did in the past 2 years - *St George Medical Centre*
