

Doctor of Medicine - 2024 Getting Started

THE UNIVERSITY
OF QUEENSLAND
AUSTRALIA

Acknowledgment of Country

The University of Queensland (UQ) acknowledges the Traditional Owners and their custodianship of the lands on which we meet.

We pay our respects to their Ancestors and their descendants, who continue cultural and spiritual connections to Country.

We recognise their valuable contributions to Australian and global society.

Commitment to Diversity and Inclusion

Diverse perspectives, abilities, experiences and backgrounds inspire creativity, encourage innovation and enrich our communities.

Members of our broad community are valued and respected for their individuality. UQ strives to create a culturally safe, welcoming and inclusive workplace, with strong community connections and partnerships.

01 Doctor of Medicine – Year 1

Professor Nalini Pather
Mayne Professor & Director,
Academy for Medical Education
Director, Medical School Teaching &
Learning and Academic Lead, MD Design

Vision

To nurture and educate future medical graduates, who are clinically capable collaborative team players, exemplifying kindness and compassion, and empowered to serve responsibly and to dedicate themselves to the continual improvement of the health and wellbeing of people and communities in Queensland, Australia and across the globe

Our UQ Values as they relate to our MD Program

Creativity

We value and encourage innovation, creativity and divergent thinking

Excellence

We strive for excellence in clinical practice, education and research to best serve our communities

Truth

We seek truth through our focus on the advancement and dissemination of knowledge, and our deep commitment to freedom of expression and human rights

Respect and inclusivity

We foster a safe, inclusive environment that is conducive to learning and promotes development of culturally safe, person-centred doctors who reflect the populations they will serve

Integrity

We take seriously the role we play as stewards of an equitable healthcare system and are ethical and principled

Courage

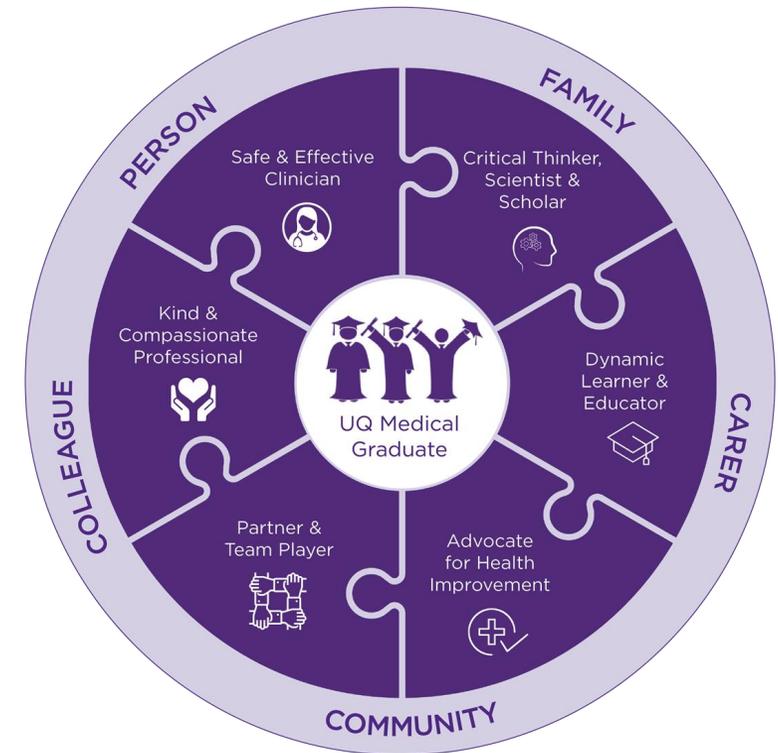

We are ambitious, bold and agile. We demonstrate moral courage, so that we are always guided by a sense of what is right.

Roles of a well-rounded doctor

High quality curriculum and clear expectations

- Whole program approach
- Coherent integrated curriculum
- Focus on application of concepts
- Scaffolded and guided
- Feedback and support
- Growth mindset and experiential learning
- Development of professional identity

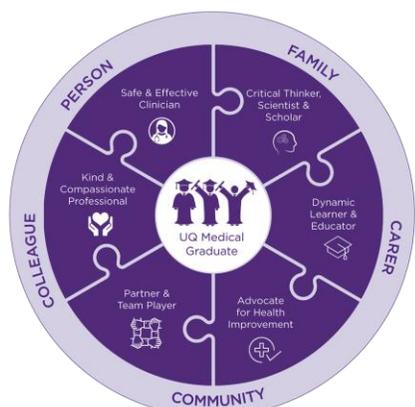

Tim Dornan, Richard Conn, Helen Monaghan, Grainne Kearney, Hannah Gillespie & Dierdre Bennett (2019) Experience based learning (ExBL): Clinical teaching for the twenty-first century, Medical teacher DOI: 10.1080/0142159X.2019.1630730

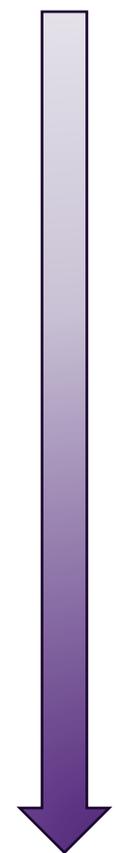

UQ MD Program Overview

Structure

- 4-year graduate program
- 3 year long and 2 courses
- Whole of program approach to assessment
- Continuous learning and development of competencies
- Professional identity as part of healthcare team

Classroom Directed

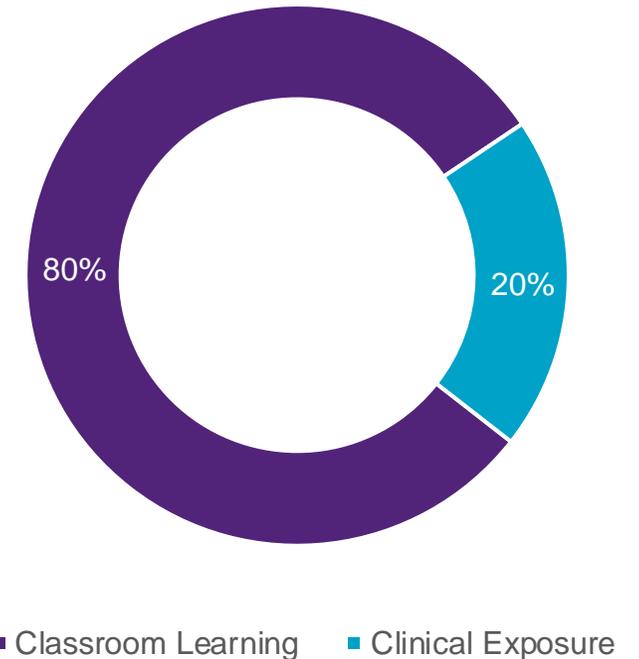

Clinical team member

<p>Year 1</p> 	<p>Foundations of Medical Practice Year-long, 16 Unit Course 4 days structured teaching - 1 teaching - 1-day basic clinical skills</p>		<p>Progress Decision</p>	
<p>Year 2</p> 	<p>Developing knowledge and skills in Medicine Year-long, 16 Unit Course 3 days structured teaching – 2 days clinical and professional practice including longitudinal placements in generalist hospital outpatient & general practice settings</p>		<p>Progress Decision</p>	
<p>Year 3</p> 	<p>Clinical Immersion across the Lifecycle Year-long, 16 Unit Course 1 day a week structured teaching – 4 days clinical experience</p>		<p>Progress Decision</p>	
<p>Year 4</p> 	<p>Advanced Practice 1 day a week structured teaching – 4 days clinical experience</p>	<p>Elective/ Remediation</p>	<p>Transition to Practice [internship/residency]</p>	<p>Graduation Decision</p>

Year 1 : MEDI7100 Foundations of Medicine

Structure:

- Full time, Year-long 16-unit course
- Integrated design based on themes
- 26 hrs scheduled learning + 14 hrs self-guided learning
- **4 days: classroom based including TBLs**
- **1 day equivalent: clinical exposure**
 - Simulations, clinical & professional skills tutorials
 - Early clinically relevant exposure
 - Hospital and Community visits (Learning community, all disciplines)

Learning experiences

Lectorials

Traditional lecture with active learning through student engagement and problem solving

Masterclasses

Demonstration of a skills by an expert or auditing an individual's consultation

Integrated Symposia

Learning interactively by being with experts in the field which may include patients or relevant community members

Workshops

Engage collaboratively in activities, discussion or debate in response to theoretical learning

Clinical plenary

Sessions led by clinical experts across the various disciplines with a focus on clinical relevance

Team-based learning (TBL)

Pedagogical strategy that engages student knowledge through individual testing and group collaboration

Practicals

Highly interactive, hands-on learning experiences

Clinical and Procedural Skills

Opportunity for you to practice and receive feedback in these hands-on practical sessions which will focus mainly on procedural skills

Clinical and Professional Learning

Foundations of History and Examinations; communication, history taking, physical examination and observation skills, as well as aspects of professionalism in practice

Overarching principles of MEDI7100

Learner centred

Diverse interactive learning experiences

Participation and engagement

Face-to-face interaction

Integrated curriculum

Learning experiences - immersion

**First Nations Cultural
Immersion Experience:
Indigenous and Cultural
Considerations**

**Rural Community
Immersion**

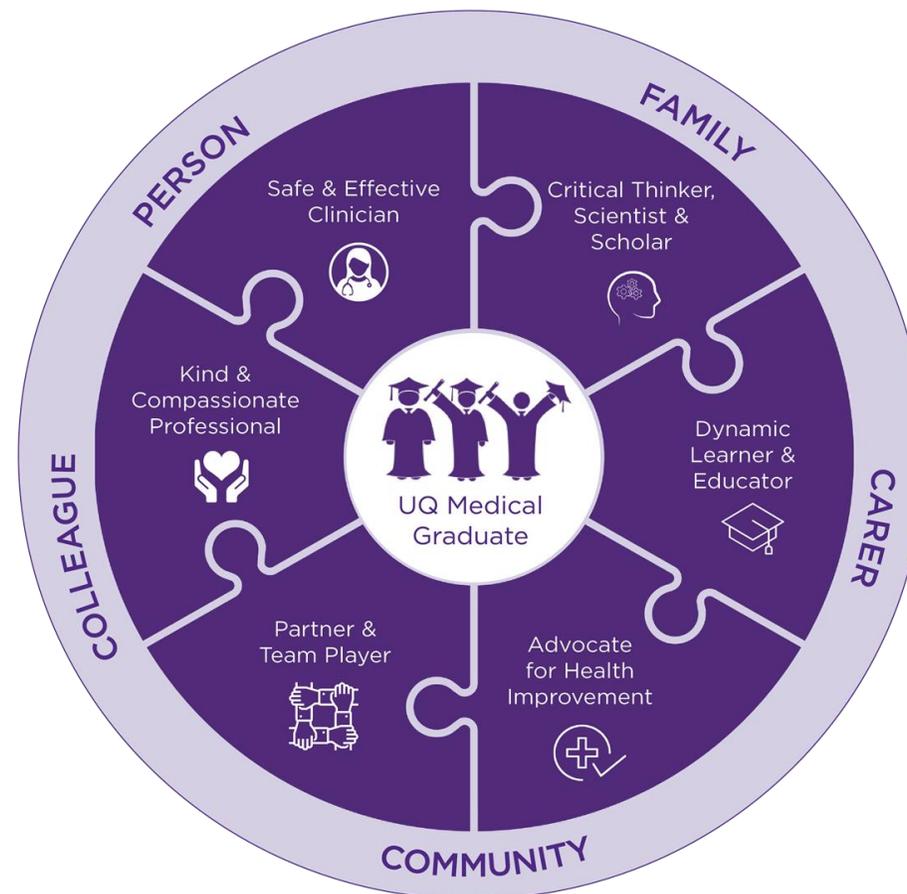

Learning experiences are linked to learning outcomes

Clinical Practice

Science and Scholarship

Professionalism and Leadership

Health and Society

Transition to the MD

Commencing Monday 29 January 2024

To welcome you to the Faculty of medicine and to the profession

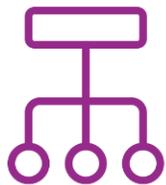

To facilitate adjustment to a graduate professional program

To introduce the range of people involved in your education – and each other 😊

To ensure you know where to find help

To explain themes and program structure

To explain assessment and feedback

To expose you to MD learning experiences

Prepare, Inspire and Enthuse

02 Retaining your place for January 2024

Dr Nicole Shepherd
Academic Lead, Medical Program
Academy for Medical Education
The University of Queensland
Medical School

Retaining your place in the MD program (for provisional entry students)

Requirements

- Maintain GPA of 5 or above
- Complete the science prerequisites (equivalent to BIOM2011, BIOM2012)
- Complete **all requirements** of your undergraduate program
- Complete your degree in the minimum time

Process

- When results are officially released, the FoM Student and Academic Admin team will be assessing each record. This will take a few days.
- Once results are assessed, you will receive a confirmation and mySI-net record will be updated.

Examination hiccups

- If you need to defer an exam or sit supplementary assessment, you will need to have all grades finalised to commence the MD program on 29 January 2024.

Want to continue to Honours/professional registration/PhD?

- Students should seek approval from the Associate Dean Academic by emailing med.enquiries@uq.edu.au.

Enrolling in the MD program

- The Medicine Program at UQ is a **full-time, professional degree program** which has a **continuous enrolment** program requirement. To ensure you are enrolled correctly, it is recommended you enrol for the entirety of 2024. **Enrolments are now open, and you will need to enrol for the MEDI7100 course.**
- Traditionally, enrolments will open for the following year at the end of November. Specific dates are available in the [UQ Academic Calendar](#).
- Below is an example of what your enrolments will look like for the entirety of your program. However, please ensure you refer to your corresponding course list to identify the appropriate course codes each year.

Year	Semester 1	Semester 2
Year 1	MEDI7100 (IP grade)	MEDI7100 (final grade)
Year 2	MEDI7200 (IP grade)	MEDI7200 (final grade)
Year 3	MEDI7300 (IP grade)	MEDI7300 (final grade)
Year 4	MEDI7400 (IP grade)	MEDI7400 (final grade)

Enrolling in the MD program

Events

- Teaching Period 7 - classes end
November 18th
- Semester 2 classes end*
November 18th

To enrol in your courses, you will use a system called mySI-net. This is the control centre for all things pertaining to Student Administration at the University of Queensland. mySI-net is the area where you enrol and drop courses, update personal information, view your grades and Studies Report, and request an Enrolment Status Report.

You can access mySI-net via your [myUQ Dashboard](#).

You may be asked to complete some compulsory tasks before SI-net will allow you to add your courses.

A

The '**Part A** component' (the Semester 1 offering) of your year-long course will have an 'IP' (In Progress) grade assigned to it which will remain for the entirety of your studies within the program.

B

Your final grade for the course will sit in the '**Part B** component' (the Semester 2 offering).

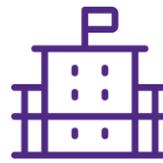

Enrolling in the MD Program

As MD program commences earlier than the standard University semester, it is recommended that you enrol in your courses as soon as you can, to avoid any delays or impacts on your commencement in the program.

The **Faculty of Medicine, Student and Administration Team** are responsible for monitoring and assisting you with your enrolment and progression throughout the program.

You will be contacted via your student email account if we require any additional actions from you from an enrolment perspective.

Questions or concerns about your enrolment in the MD program? You can **find us at the Student Hub**, Level 5 Oral Health Centre (OHC), Herston Campus.

Our office hours are Monday- Friday
8:30am-4:30pm.

You can also contact us via phone (07) 3346 4922 or email [**med.enquiries@uq.edu.au**](mailto:med.enquiries@uq.edu.au).

ID Cards

As an MD student, you will need to obtain and always carry with you, two ID cards:

- Standard UQ Student ID
- Medical Student ID

The Medical Student ID card is often used as your primary identification as a medical student while on clinical placement or in hospital settings.

You can request both IDs through the [online form](#), where you will be asked to upload a passport photo of yourself.

IMPORTANT: The Medical Student ID card is not automatically issued. Please make sure you indicate in your request that you are requesting both IDs or just the Medical Student ID (for students who have studied at UQ previously and already have a UQ Student ID).

If your UQ Student ID has expired, you can request a replacement ID card through the same form.

04 Learning Communities - Definition and Preferencing

Ashlee Flohr

Senior Placement Officer &
Ochsner Partnerships Advisor
Student and Academic Administration
Faculty of Medicine

MD Learning Communities

What is a Learning Community?

Each 'learning community' is geographically based bringing together students, academics, clinical teachers and professional staff.

Learning communities provide a clinical home where students can engage in learning with each other and are supported to flourish as they develop as a medical professional across the MD program.

For more information, please visit our [Learning Communities](#) page.

What are the Learning Communities?

Learning Community	Hospitals
Central	Royal Brisbane and Women's Hospital, Greenslopes Private Hospital and community providers
North	The Prince Charles Hospital, Caboolture Hospital, Redcliffe Hospital and community providers
South	The Princess Alexandra Hospital, Queen Elizabeth II Jubilee Hospital and community providers
West	Mater Hospital, Ipswich Hospital and community providers

Learning Communities – preferencing and allocations

What you can preference depends on the type of student you are.

UQ-Onshore Medical Student*

- Central
- North
- South
- West

UQ-Ochsner Medical Student

- Central
- South

Important!

Regional Medical Pathway (RMP) and Darling Downs – South West Medical Pathway (DDSW) students are already allocated!

- **Central QLD = Central**
- **Wide Bay = South**
- **Darling Downs – South West = Central**

*non-RMP students

Special Consideration

- Circumstances may impact your ability to be assigned to a particular Learning Community (i.e., health related, primary carer responsibilities).
- Applications for special consideration open from **29 Nov – 15 Dec 2023 (midday)**.
- Circumstances not considered grounds for special consideration include:
 - private accommodation;
 - financial considerations;
 - location of partner or family;
 - religious grounds.
- Applications must be supported by evidence.
- **If you are unsure – apply anyway!**
- **Note:** RMP and DDSW students are not eligible for the special consideration process, as they are already allocated.
- Further information can be found in the [MD Learning Community Allocation – Special Consideration Guidelines](#).

Preferencing process

To preference for your Year 1 Learning Community, you will need to access InPlace, UQ's placement system.

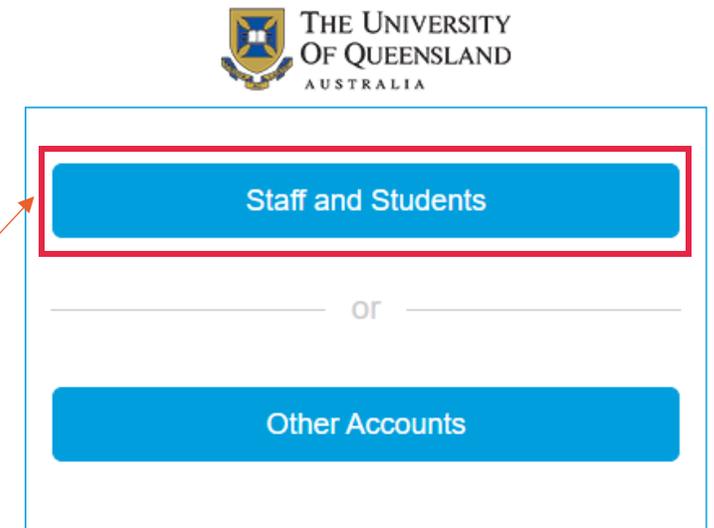

You can access the Placements system via my.UQ or via <https://placements.uq.edu.au/>

Need help with logging in?
help@its.uq.edu.au

Understanding your allocation

What is my allocation?

This represents the Learning Community you will be allocated to for the duration of your studies.

Where can I see my allocation?

Your allocation will be visible in InPlace, in the confirmed pane

Once you have been allocated a Learning Community, it will appear in the confirmed pane on the Placement System Home screen

Important dates

Task	Date
Special Consideration opens	29 Nov 2023*
Special Consideration closes	15 Dec 2023*
Learning Community preferencing opens	20 Dec 2023*
Learning Community preferencing closes	2 Jan 2024*
Allocations released	w/c 8 Jan 2024

* All application/preferencing periods will open and close at midday (AEST) on the relevant date.

Please note it may show as 1:00pm, this is due to daylight savings.
Preferencing will ALWAYS open and close at midday.

05 Timetable pathways and allocations

Andrew Daddow
Coordinator, Timetable
Student and Academic
Administration
Faculty of Medicine

Timetable

Learning Community	Locations	Timetable Pathway Groups
Central	Royal Brisbane and Women's Hospital , Greenslopes Private Hospital and community providers	19 timetable pathways groups 7 to 25
North	The Prince Charles Hospital , Caboolture Hospital , Redcliffe Hospital and community providers	6 timetable pathways groups 44 to 49
South	The Princess Alexandra Hospital , Queen Elizabeth II Jubilee Hospital and community providers	18 timetable pathways groups 26 to 43
West	Mater Hospital , Ipswich Hospital and community providers	6 timetable pathways groups 1 to 6

The timetable pathways have been built around small learning groups of 10. You will be asked to indicate your preferred learning group. This will determine your allocation to small group learning experiences, including Team Based Learning, Clinical and Professional Learning, and Procedural Skills workshops.

Work Integrated Learning (WIL) requirements

<https://medicine.uq.edu.au/current-students/work-integrated-learning-wil-requirements>

🏠 / Current students

Some of our programs and courses have compliance or pre-placement requirements that you need to meet before commencing your program, course or placement. These are called Work Integrated Learning (WIL) requirements. Many of these requirements need to be renewed for the rest of your career, so this is the first step in your professional journey.

It is your responsibility to ensure that you are compliant with your pre-placement requirements. Please take note of the approximate timeframes for completion, as failure to complete all your requirements by the deadline may affect your enrolment or disqualify you from attending placement, and significantly
